## Professional experience

Designed and implemented business solutions in the UK, US and Southern Africa over a 25-year career in financial services IT.

Now operating as an independent consultant, specialising in business architecture, enterprise architecture, process architecture and holistic delivery and transition methodologies, including Lean transformation.

Previous career specialities have included systems analysis and design; systems development management; project management; business analysis, client consultancy; data analysis, design and administration; quality training; business process engineering.

In 1996 moved from UK to Cape Town to co-found Global Edge, a strategic business-enablement competency to support the international expansion of Old Mutual, a Global 500 financial service group. Served on the Global Edge executive, responsible for business architecture and delivery methodology. Role included: designing business change projects and the systems/system changes required to support the business changes; sales proposals, brochures and marketing presentations for generating and securing new business; development of process-architectural methodology and holistic delivery process; establishment and management of business analysis/modelling/design competency.
